Satellite Clinics and HMO Under Study

A team of Henry Ford Hospital administrators and physicians has undertaken a feasibility study to consider establishment of satellite clinics and development of a prepaid group health maintenance organization (HMO). The Hospital has applied to the Federal government for funds to help support the study.

The clinics would operate as outpatient and emergency care units with referrals for more complicated treatment or hospitalization to the main hospital.

Possible sites under consideration are the rapidly growing Oakland County area around Troy and the planned community to be developed in mid-Dearborn by the Ford Motor Company. A Detroit location could be at or near the Hospital.

Housing Program For Residents and Interns

An extensive housing program to assist all residents and interns with accommodations during their training at Henry Ford Hospital was announced this summer. Involved are a total of 1,161 units in eight apartment complexes which are located in Detroit as well as the suburbs of Bloomfield Hills, Southgate and Pontiac. All the apartments are within a half hour's drive of the Hospital. Facilities range from efficiency units to three-bedroom town houses, with the larger units open to families with children.

Although rental rates are reasonably reduced, most apartments include drapes, carpeting, major appliances and some have swimming pool facilities. Bachelor quarters adjacent to the Hospital remain available to unmarried residents or to those whose families are not with them during training.

Residents Win Awards

Winners of first prize in the medical and surgical categories of the Resident Education Seminar III were Marvin D. Anderson, M.D., for his paper on "Greenhouse Fungicide — Environmental Carcinogen?" and Mohammed R. Ansari, M.D., for his paper "The Use of a Kidney Cooling Jacket During Vascular Anastomosis of Kidney Transplant." Dr. Stanley Dienst, General Surgery Division II, is co-author with Dr. Ansari.

Dr. Anderson, a resident physician in Medical Clinic 2, along with co-author H. S. Rosenkranz, M.D., of Columbia University, was the recipient of the William Lyon Lowrie Award of Medical Sciences. Dr. Ansari received the Roy D. McClure Surgical Award. Both prizes included $200.

The board of trustees has approved appointment of C. Thomas Smith, Jr., new associate executive director of the Hospital, to head the study. Also participating in the study are Stanley R. Nelson, executive director, and other members of the administrative and medical staff.

Mr. Smith comes to HFH from the University of Minnesota Hospitals, Minneapolis, and has also served at Baptist Memorial Hospital in Memphis, Tenn., and Arkansas Baptist Medical Center, Little Rock.

He received his bachelor's degree from Baylor University in 1960, and a master's degree in business administration from the University of Chicago.

Also announced recently was the appointment of Miss Jocelyn E. Carlson to the new post of Assistant Administrator-Nursing with responsibility for the Inpatient Nursing Department. One of her immediate objectives will be to further the development of a program to create five smaller hospitals within IPD.

Miss Carlson was administrator, chief executive officer and president of the board of Holy Cross Hospital, Detroit, until last December. In addition to administering the hospital, she was also responsible for a $7.2 million building program and merger of St. Francis Hospital with Holy Cross.

Miss Carlson has a master's degree in hospital administration from Xavier University (Cincinnati).

Miss Helen Harper, Director of Nursing and of the School of Nursing, has resigned to accept a position as director of nursing of the Rehabilitation Institute, Detroit.
Recent Staff Appointments

The Board of Trustees and the Council of Department Chairmen recently announced a number of staff appointments.

Richard D. Nichols, M.D., was named chairman of the Department of Otolaryngology early in May. Dr. Nichols had been acting chairman of the department from July to November 1969 when he became interim chairman. He received his medical degree from the University of Michigan Medical School and did his early postgraduate training at St. Joseph Mercy Hospital in Ann Arbor. He spent four years at the Univ. of Michigan Otorhinolaryngology Dept. as a resident in surgery before his appointment as associate surgeon at Henry Ford Hospital in 1967. Dr. Nichols is a clinical professor in Otorhinolaryngology at U. of M. in addition to his duties at HFH.

Joseph C. Cerny, M.D., begins his position July 1 as chairman of the Division of Urology, in the Department of General Surgery. Dr. Cerny comes from the University of Michigan where he has held a number of appointments since he began there as an intern in 1956. His current title is Clinical Associate Professor of Surgery. Concurrent with his U. of M. position, he has served on the active and consulting staffs at the Veterans Administration Hospital in Ann Arbor, the Plymouth State Home for Children in Plymouth, and the St. Joseph Mercy Hospital in Ann Arbor. Dr. Cerny is a graduate of the Yale University School of Medicine. His major published research concerns the problems of renal failure and kidney transplantation.

Boyd K. Bresnahan, M.D., was appointed to the staff of the Department of Psychiatry on April 1. Previously in private practice in Detroit and Southfield, Dr. Bresnahan has held staff appointments at Detroit's Sinai Hospital and Kingswood Hospital in Ferndale. He received his medical degree from the University of Michigan in addition to his duties at HFH.

Robert W. Brownlee, M.D., has returned to the Henry Ford Hospital medical staff in the Division of Oncology after two years of private practice in Kalamazoo, Mich. Dr. Brownlee, a graduate of McGill University Medical School in Montreal, was at Riverview Hospital in Windsor from 1959 to 1966 and was a member of HFH staff from 1966 to 1969 in the Division of Oncology.

Roque Carbajo, M.D., was appointed to the Anesthesiology staff in April. A graduate of the San Marcos University Faculty of Medicine in Lima, Peru, Dr. Carbajo interned at Stamford Hospital in Stamford, Conn., and served for two years as a resident in obstetrics and gynecology at Mt. Carmel Hospital in Detroit. He came to HFH in 1969 for a two-year residency in anesthesiology.

Philip J. Dorman, M.D., will arrive in mid-August to accept a staff position in Medical Clinic 4. He is presently serving in several capacities in Philadelphia where he is assistant clinical professor of medicine at Jefferson Medical College, and assistant attending physician at the Jefferson Medical College Hospital and at the Philadelphia General Hospital. He is also director of the Drexel University Health Services and associate professor of biological sciences there. Dr. Dorman graduated from the Tufts College Medical School and interned and served two years' residency at St. Luke's Hospital, New York City. He has also had other extensive postgraduate training and experience with other hospitals and private industries prior to his most recent positions. He also served three years with the U.S. Navy.

Carlinha Jimenea, M.D., returned in February as an assistant in the Division of Rheumatology and was appointed staff physician in June. Educated at the University of Philippines Medical School, Dr. Jimenea interned and served a year's residency at Mercy Hospital, Buffalo, N.Y., before coming to HFH in 1966 to complete her residency. She was a fellow in rheumatology here from 1968 to 1970 before accepting a position at Hillcrest Hospital in suburban Cleveland.

James J. Karo, M.D., who was appointed to the staff in Radiology on April 1, completed his residency here at the end of March. Dr. Karo received his medical education at Wayne State University School of Medicine and interned at Harper Hospital before entering the U.S. Army in July 1965. Following his discharge in 1968, he came to HFH as a radiology resident.

Ratnakar Kini, M.D., has returned to the Hospital staff for the practice of oncology in the Department of Pediatrics. Dr. Kini first came to HFH in July 1966 as a pediatric resident, became chief resident in Pediatrics, served as a special fellow in pediatric oncology before leaving for India in June 1969. Dr. Kini received his medical education in his native India, then came to the U.S. in 1964 for training in pathology and pediatrics at Women's Medical Hospital, Philadelphia.

Sudha R. Kini, M.D., returns to staff in the Department of Pathology on July 1. She is the wife of Dr. Ratnakar Kini and has
also been in India since November 1969. Like her husband, she is a native of India, was educated there, and served her residency in pathology at Women's Medical Hospital. She came to HFH in 1966 for additional work in pathology, finishing in 1969.

Returning to Henry Ford Hospital to a staff appointment in the Department of Pediatrics on July 1 is Mary J. Kokosky, M.D. For the past year, Dr. Kokosky has been at the University of Southern California Medical Center in Los Angeles. She is a graduate of Women's Medical College in Philadelphia and finished her pediatric residency here in 1970.

Weng Kun Lai, M.D., will join the staff in the Department of Gynecology and Obstetrics on July 1. Dr. Lai, who is presently finishing his residency in OB-GYN pathology at Magee Women's Hospital in Pittsburgh, is a native of Mauritius (a British colony in the Indian Ocean). He was educated at Trinity College, Dublin, and served his internship and residencies in Ireland, England and Canada.

Alywn M. Parfitt, M.D., arrived from Australia July 1 for an appointment to staff in Medical Clinic 5. Dr. Parfitt has been a senior lecturer in medicine at the University of Queensland and a physician at the Royal Brisbane Hospital, both in Australia, since 1962. A native of England, he was educated at Cambridge University and the University of London. Dr. Parfitt held numerous positions at hospitals in London before emigrating to Australia in 1962. He served as a visiting scientist at the Cedars-Sinai Medical Center in Los Angeles, Calif., from August 1968 to June 1969. In addition to his staff position at HFH, Dr. Parfitt will be actively involved in research at the Hospital as chief of the newly-created mineral research laboratory. Dr. Parfitt is an internationally known authority in the field of mineral metabolism. His wife is also a physician, and they have three children.

Arturo V. Pascual, M.D., will join the staff in July as an assistant physician in the Metabolism Division, with related responsibilities in hypertension research. Dr. Pascual comes to the Hospital from the University of Michigan Medical Center where he is a teaching associate and clinical research fellow in hypertension. He is a graduate of the University of Cebu Institute of Technology College of Medicine in the Philippines and took postgraduate training at Marymount Hospital, Cleveland; Beckley Appalachian Regional Hospital, West Virginia; and at Bowman-Gray School of Medicine of Wake Forest University, North Carolina.

Jan Rival, M.D., received a staff appointment in Medical Clinic 1 in July after completing two years at HFH as a resident in the Department of Medicine. Dr. Rival is a native of Czechoslovakia and received his medical degree (magna cum laude) from Komenski University, Czechoslovakia. He interned and received his early postgraduate training in that country and then came to the U.S. in 1967 as a fellow in cardiology at the Philadelphia General Hospital. After that he spent a year as a fellow in cardiology at Wayne State University before coming to HFH in 1969.

Michel Salib, M.D., joined the staff in the Division of Preventive Medicine on July 1. He comes to HFH from Wayne State University School of Medicine where he has been an adjunct clinical instructor in internal medicine and gastroenterology since 1968. At the same time he was an associate in internal medicine at Detroit General Hospital. He also served as an internist and gastroenterologist at Metropolitan Hospital from 1968 to 1970. Dr. Salib is a native of Egypt and received his medical education at Cairo University. He held several positions simultaneously in Egypt as a professor of medicine and chief of the gastroenterology clinic at Ain Shams University in Cairo and was also in private practice as an internist and gastroenterologist.

Kent K. Wu, M.D., has returned to the Henry Ford Hospital staff in the Department of Orthopedic Surgery. He was recently discharged from the U.S. Army, having spent two years at Ft. Leavenworth, Kansas. Dr. Wu received his medical degree from the University of Michigan, graduating in 1965. He interned at Harper Hospital before coming to HFH for his residency in orthopedic surgery, which he completed in 1969 before entering the service. He is a member of Phi Beta Kappa as well as other honorary societies.

Orthopedics Newsletter
A new newsletter for alumni of the Department of Orthopedic Surgery was mailed recently. According to the editor, Dr. Edwin Guise, the periodic newsletter is intended to keep the lines of communication open between the HFH staff and alumni of the department.

Some of the items included in the newsletter: The C. Leslie Mitchell Orthopedic Society will meet this year at HFH on September 10 and 11. The guest speaker will be Dr. William Smith, professor and chairman of the Department of Orthopedics at the University of Michigan.

The orthopedic residency program has been converted to a four-year program with 23 residents now assigned to the department with a potential of 24.

The HFH Orthopedics Department is working with Marygrove College in Detroit to establish a program for the training of Physician's Assistants in Orthopaedic Surgery.
Among the participants in the two-day postgraduate course in Clinical Infectious Diseases held last May at HFH were, l to r: Martin McHenry, M.D., of the Cleveland Clinic; E. L. Quinn, M.D., HFH Division of Infectious Diseases; Dennis Maki, M.D., of the U.S. Public Health Service Center for Disease Control, Atlanta, Ga.; Robert Fekety, M.D., professor of medicine and chairman of the Division of Infectious Diseases at the University of Michigan and Calvin Kunin, M.D., of the University of Wisconsin. Dr. Quinn and Dr. Fekety were co-chairmen of the HFH-University of Michigan course entitled "Therapy of Infectious Diseases."

Dr. James E. Green, Department of Dermatology, has been appointed to a three-year term on the Committee for Standards and Examinations of the American Board of Medical Microbiology. He will serve as an examiner in Public Health and Medical Laboratory Mycology through 1973.

Gerald M. Breneman, M.D., Division of Cardiovascular Disease and physician in charge of HFH Coronary Care Unit, has been installed as president of the Michigan Heart Association for the coming year.

Rodman E. Taber, M.D., acting chief of the Division of Thoracic Surgery, discussed the subject of "Left Ventricular Outflow Tract Obstruction" at a postgraduate course on cardiovascular disease conducted by the American College of Surgeons in Chicago.

Dr. William S. Haubrich has been appointed clinical professor of medicine on the faculty of the medical school of the Univ. of Calif., San Diego. Dr. Haubrich is with the Division of Gastroenterology, Scripps Clinic and Research Foundation, in LaJolla, Calif. He was formerly a staff physician in the G.I. division at HFH.

Lewis B. Morrow, M.D., who has been with the Endocrinology Division since 1967, left July 1 to accept an appointment as Assistant Professor of Medicine at the University of Rochester College of Medicine, Rochester, N.Y. Dr. Morrow returns to his alma mater, having received his postgraduate training at Yale University before joining the HFH staff.

Personal Appearances

A paper on "The Nature and Surgical Treatment of Lower Esophageal Ring (Schatzki's Ring)" was read by Dr. Conrad R. Lam, consultant in the Department of Surgery, before the American Association of Thoracic Surgeons April 25 in Atlanta. Dr. Rodman E. Taber and Dr. Eduardo Arciniegas were co-authors.

At a meeting of the Central Surgical Society in Minneapolis last spring Dr. Lam and Dr. Taber presented a paper on "Surgical Treatment of Pectus Carinatum." One of the founders and first president in 1940 was Dr. Roy D. McClure, first surgeon-in-chief at HFH.

At the invitation of alumnus Dr. Carlos Mota, who served residencies at HFH in general and thoracic surgery, Dr. Conrad R. Lam conducted a joint conference on thoracic surgery problems for the combined staffs of Veterans Hospital and St. Elizabeth's Hospital at Lincoln, Neb., last April 14. Dr. Mota is now chief of surgery at Veterans Hospital. The following day, Dr. Lam was visiting professor at the Univ. of Nebraska in Omaha.

Dr. John H. L. Watson and John Swedo of the Physics and Biophysics Department, E. B. F. I., presented a paper on "Ultrastructure of Metastatic Human Mammary Carcinoma after Prolonged Estrogen Therapy" at the IVth Internation Congress of Cytology held in London, England, in May. Dr. Robert Talley, Division of Oncology, was co-author.
