Henry Ford Hospital Medical Journal

Winter 1977
Advice to Authors:
Henry Ford Hospital Medical Journal

The Editorial Board of the Henry Ford Hospital Medical Journal welcomes papers for review and possible publication from any former or present staff member or alumnus of Henry Ford Hospital. The Journal is intended to be a broad scientific forum for all areas of interest at Henry Ford Hospital: clinical, research, technical, administrative, patient care delivery. Papers are invited on a wide range of topics: review articles, research studies, case reports, philosophical discussions and theses, abstracts of staff publications in other journals.

Style of writing should be consistent with good English usage: clear, succinct, and correct. Papers accepted for publication are subject to editing and revision, if needed, with the author’s approval. Within these limits, individuality will not be restricted. All papers submitted should meet the following guidelines:

1. Three copies of the manuscript are required, with the author keeping at least one more. One submitted manuscript should be the original and the other two dry-copy (i.e., Xerox). One complete set of original black and white illustrations must be submitted with the three copies of the manuscript, and the author must have available if needed at least one complete duplicate set of illustrations. Dry copies of the illustrations should be included with the two dry copies of the manuscript.

2. All parts of the text, including case reports and references, should be typed double- or triple-spaced with ample margins.

3. All figures and tables should be submitted camera-ready, wherever possible. If illustrations cannot be reproduced in their original size, desired “cropping” should be shown or reduction considered.

4. Layout of the textual presentation and number of illustrations are left to the author’s discretion, within reasonable limits.

5. Dorland’s Medical Dictionary, Webster's Third International Dictionary, and the Editorial Manual (6th ed.) of the American Medical Association are the standards used, with titles as abbreviated by Index Medicus.

6. References should be in numerical rather than alphabetical sequence, according to the order of their appearance in the text, and in the following form:

7. The author is responsible for the accuracy of all references.

8. Acknowledgments of grant support should be indicated in an initial footnote, with the departmental and divisional affiliations of the author(s) also supplied in the same note.

9. A summary/abstract, i.e., a 150-200 word statement of purpose and conclusions, should be provided for use with the paper.

10. A short list of key words should be furnished for indexing the paper in the Journal’s Annual Index published in each Winter issue.

One hundred reprints will be made available without charge to the authors of each paper published in the Journal. Reasonable requests for additional reprints made when the paper has been accepted for publication will be honored if possible.
FEATURE ARTICLE

Studies on uveitis
Part I: Aqueous studies
Philip C. Hessburg, MD 225

CASE REPORTS

Colonoscopic polypectomy in a preschool-age child
Carlos A. Ricotti, MD 281

ANNUAL INDEX: Volume 25, 1977

The Henry Ford Hospital Medical Journal is published quarterly and is furnished without charge to all Henry Ford Hospital professional staff members and alumni as well as to all interested medical libraries, research laboratories, medical students, interns, residents, and practicing physicians. Requests for subscriptions to the Journal should be sent to: Publications Office, 226 Nurses Residence, Henry Ford Hospital, Detroit, MI 48202.

The Journal is intended to be a broad scientific forum for all areas of interest at Henry Ford Hospital: clinical, research, technical, administrative, patient care delivery. Papers are invited on a wide range of topics: review articles, research studies, case reports, philosophical discussions and theses, abstracts of staff publications in other journals. Papers for review and possible publication are open to any former or present staff member or alumnus of Henry Ford Hospital.

The Editorial Board invites response from any of the Journal's readers to papers published in any issue. Beginning with the Spring, 1978 issue, a new feature of the Journal will be a Letters to the Editor section. All letters should be typed and double-spaced with references provided; they are subject to editing and abridgment if necessary. Letters to the Editor should be sent to: Editorial Office, 3018 Education and Research Building, Henry Ford Hospital, Detroit, MI 48202.
