“To wrest from nature the secrets which have perplexed philosophers in all ages, to track to their sources the cause of disease, to correlate the vast stores of knowledge, that they may be quickly available for the prevention and cure of disease . . . these are our ambitions.”

Sir William Osler (1849-1919)

Participants of the First International Workshop on MEN-2 Syndrome, June 1984, Kingston, Ontario, Canada.

Participants of the Second International Workshop on MEN-2 Syndrome, September 1986, Cambridge, United Kingdom.
