The Third International Workshop on Multiple Endocrine Neoplasia Type 2 Syndromes
F. Rau and C. E. Jackson

Multiple Endocrine Neoplasia Type 2 Syndromes: Nomenclature Recommendations from the Workshop Organizing Committee
R. F. Gage and Others

Closing in on the MEN2A Locus
N. E. Simpson and K. K. Kidd

Early Detection of Hereditary Medullary Thyroid Cancer with Polymorphic DNA Probes
S. A. Narod and Others

Hereditary Medullary Thyroid Carcinoma: Genetic Analysis of Three Related Syndromes
H. Sobol and Others

Allele Loss on Chromosome 10 and Point Mutation of ras Oncogenes are Infrequent in Tumors of MEN 2A
M. Okazaki and Others

Genetic Mechanisms of Neoplasia in MEN 2
C. E. Jackson and R. A. Norum

Screening for Medullary Thyroid Cancer in France: A National Effort
C. Calmettes and Others

The Importance of Screening for Medullary Thyroid Carcinoma in Families of Patients with MEN 2
A. Frilling and Others

Results of a Screening Program for Multiple Endocrine Neoplasia Type 2A: A Clinical Study of a Japanese Family
T. Shimodate and Others

MEN 2A: Update on the Northern Ireland and Australian Family
P. J. Morrison and Others

Screening for Pheochromocytoma in the MEN 2 Syndrome
J. Kotzerke and Others

Diagnosis, Management, and Pathogenetic Studies in Medullary Thyroid Carcinoma Syndrome
N. A. Samaan and Others

Postoperative Pentagastrin-Stimulated Serum Calcitonin Concentrations in Patients with Medullary Thyroid Carcinoma: Reoperations in Patients with Concentrations Bordering the Detection Limit
H. Meybier and Others

Comparison of Sporadic and Hereditary Forms of Medullary Thyroid Carcinoma
M. Rosenberg-Bourgin and Others

Cutaneous Lichen Amyloidosis Associated with Multiple Endocrine Neoplasia Type 2A
V. Nunziata and Others

Familial Cutaneous Lichen Amyloidosis in Association with Multiple Endocrine Neoplasia Type 2A: A New Variant
D. T. Donovan and Others

Use of Somatostatin Analog SMS 201-995 in Medullary Thyroid Carcinoma
A. Libroia and Others

Adrenal Cortex Transplantation After Bilateral Total Adrenalectomy in the Rat
G. F. W. Scheumann and Others

Continued on back cover
The Henry Ford Hospital Medical Journal is published quarterly by Henry Ford Hospital and is distributed to Henry Ford Hospital staff, alumni, and to medical centers, libraries, and physicians in the United States and abroad. It is also sent, upon request, to medical students in their third and fourth years of medical school. Medical students should state the year of their graduation when requesting the Journal. Requests should be sent to the Medical Journal Office, 411/413 New Center Pavilion, Henry Ford Hospital, 2921 W Grand Blvd, Detroit, MI 48202.

For changes of address, please enclose the old address label, give the complete new address, and allow six weeks for processing.

The Journal publishes the work of any current staff member or resident of Henry Ford Hospital, alumni, and participants in academic and scientific activities, meetings, and symposia sponsored by Henry Ford Hospital. The Journal is listed by Index Medicus and is intended to be a broad scientific forum for all areas of interest: clinical, research, technical, administrative, medical ethics, and patient care delivery. Complete instructions for authors wishing to submit a manuscript are printed at the back of the first issue of each year.

Back copies of the Journal are available from University Microfilms, 300 N Zeeb Rd, Ann Arbor, MI 48106, as 3.5 mm microfilms (Vols 1-20) or as 16 mm films (Vols 19-present).
In Appreciation

In addition to members of the Editorial Board, many individuals have reviewed manuscripts for the *Henry Ford Hospital Medical Journal* during the past year. The Editorial Board would like to take this opportunity to acknowledge their valued service in acting as reviewers for the Journal in 1989.

ANNOUNCEMENTS 224

Henry Ford Hospital Medical Journal, established in 1953, is published quarterly as the official scientific publication of Henry Ford Hospital. Reproduction in whole or part without permission, except photocopies for noncommercial scientific or educational purposes only, is prohibited. All editorial correspondence should be directed to the Managing Editor. Subscription requests and changes of address should be sent to Henry Ford Hospital Medical Journal, 2921 W Grand Blvd, Detroit, MI 48202.

Henry Ford Hospital Medical Journal is included in Index Medicus and the Medline System. ISSN 0018-0416.

Participants of the Third International Workshop on MEN 2 Syndromes, September 1989, Heidelberg, West Germany.
