NOTES AND COMMENTS:

Roy D. McClure Surgical Alumni Association

A more active and meaningful dialogue among surgical alumni of Henry Ford Hospital is promised as the result of the first scientific meeting of the Roy D. McClure Surgical Alumni Association, held at the hospital last November 8 and 9. The complete program is published here.

The Association was founded in 1966 to honor the memory of the late Dr. McClure and to provide a medium for continued diffusion of professional experience in the art and science of surgery. Dr. McClure was surgeon-in-chief at the hospital from 1916 until his death in 1951. He became known all over the world for his surgical achievements and his interest in new techniques and developments in surgery.

Present officers are: Dr. W. A. Altemeier, president; Dr. George Plain, vice-president; and Dr. J. L. Ponka, secretary-treasurer.
